

IYPT Magazine: Call for papers

Submission Deadline of the 5th issue: **February 3rd, 2017**

The IYPT Magazine is an extended stage of the International Young Physicists' Tournament (IYPT, also known as "Physics World Cup") competition. It is a place for young physicists to share their brilliant ideas and results on the physics problems of IYPT games. The written solutions published in the IYPT Magazine can be publicly reported and discussed. Further more, it leaves valuable literatures for future studies of IYPT problems for scholars, teachers and students. Review process will be implanted and advises will be provided to the authors for proper scientific writing of the paper and to insure a high quality publication of the magazine.

Besides, IYPT Magazine is also a plate form for the participant countries to present the worldwide IYPT-related activities and exchange ideas of physics/science education.

1~2 issues of IYPT Magazine will be published each year. The publication of IYPT Magazine is authorized Executive Committee of IYPT, and is supported by the National Taiwan Normal University of Taiwan. Submission of papers please go to

<http://iyptmag.phy.ntnu.edu.tw>

All young physicists and teachers related to IYPT are welcome to submit your papers. Don't hesitate to contact us.
